Entrepreneurship in Digital Health (EDITH) co-founded by the European Union

Become part of the digital health revolution. This MSc is our newly designed pan-European programme that focuses on improving and implementing digital health solutions.

Combining strategic management, digital innovation and international business creation, this programme will equip you with the necessary skills to thrive in the ever-evolving digital health sector. Through hands-on learning, you'll gain the skills to excel in this landscape.

The MSc Entrepreneurship in Digital Health fosters a culture of transdisciplinary in which you'll collaborate with individuals who share your passion for healthcare transformation. Together, you'll bring your ideas to life and tackle the challenges of digital health head-on.

The program covers the following topics

- > Promotes transdisciplinarity and multiculturalism as an innovative approach towards the challenges encountered for the provision of digital health
- > Unites activities in entrepreneurial education including strategic management, digital innovation and international business creation (knowledge triangle) in healthcare.
- > Enables exchange between students, entrepreneurs, practitioners, researchers etc. from the relevant fields of knowledge and practice and provide an hands on experience.

External partners

Entrepreneurship in Digital Health [EDITH] is a Master's degree programme co-funded by EITHealth. It is a Joint Program (multiple degrees) in cooperation with MedUni Graz, Boehringer Ingelheim, Digital Pharma Lab, Institut Mines-Télécom, Medical University of Lodz and University of Naples Federico II.
